DENNERLE

est. 1966

„An aquarium with splendidly growing plants and vital fish that feel good and multiply in a healthy biotope – that is nature conservation at home.“

Ludwig Dennerle

AQUARIUM IN BALANCE

Since the company was founded in 1966, we at Dennerle take a holistic view of the ecosystem aquarium to recreate the biological cycles in it as close to nature as possible. 5 elements significantly influence the system.

Light

Source of life. One of the most important eco-factors for your plants, because light supplies the energy for photosynthesis. Lighting with an adapted color spectrum promotes plant growth and inhibits unwanted algae.

Plants

Oxygen producers, pollutant filters and habitat creators. Plants form the ecological counterbalance to fish: They are an indicator of good water quality and a prerequisite for healthy aquarium inhabitants.

Water

The habitat for healthy plants and animals. It provides them with vitamins, minerals and trace elements. Only if the water values are right, all aquarium inhabitants feel well and show themselves in their most beautiful colors.

Animals

Fascinating and exciting to observe. New behaviors can be discovered every day. Their food and digestion influence the entire biosystem. Keeping them healthy is the responsibility of every aquarist.

Substrate

Natural balance starts with the substrate. Nutrient medium or soil provides the plants with vital nutrients. Useful microorganisms live in the substrate, which take over an important biological filter function.

Corner filter Extension 40/60

Clip-on additional filter

- For Corner filter 40 and 60
- Enlarges the filter volume (60 ml)
- Can be individually equipped
- Suitable for Dennerle filter material
- Including pre-filter sponge

Measures: 159 x 80 x 30 mm

Scope of delivery

Content: 1 pc

Item no.: 5840

PU: 4

Corner filter module 40/60

Basket for filter material

- Replaces a Corner filter element 40/60
- Increases the filter performance
- Can be individually equipped
- Suitable for Dennerle filter material
- It provides a multi-stage filtering in the Corner filter 60

Measures: 155 x 60 x 40 mm

Scope of delivery

Content: 1 pc

Item no.: 5845

PU: 4

Corner filter Baby Protect 40/60

Additional intake protection

- Clip-on intake protection for Corner filter
- With filter sponge, pore size approx. 0.5 mm
- Protects newly hatched shrimp larvae
- Wash out filter sponge regularly
- Simple installation

Measures: 155 x 60 x 40 mm

- Phosphate binding granules
- Eliminates the main cause of algae plagues
- Simultaneously fulfills a biological filter function
- Active up to 3 months

Measures: 165 x 90 x 35 mm

Scope of delivery

Content: 300 ml

Item no.: 5842

PU: 4

Nano Bio FilterGranulat

Biological filter medium

- For use in Corner filter Module and extension
- For optimal pollutant removal
- Made of high quality sintered glass
- Huge surface area for biological filtration
- Washable as often as desired

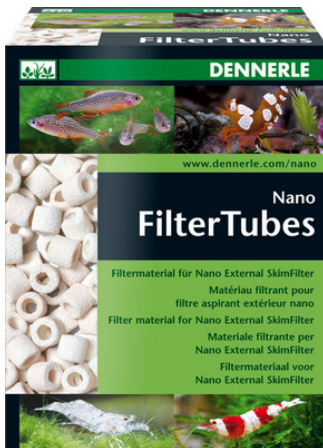

Measures: 165 x 90 x 35 mm

Scope of delivery

Content: 300 ml

Item no.: 5844

PU: 4

Nano FilterTubes

Ceramic filter elements

- For use in the Scaper's Flow
- For optimal pollutant removal
- Surface area for microorganisms
- The filter performance is increased
- Washable as often as desired

Measures: 123 x 96 x 65 mm

Scope of delivery

Content: 1 pc

Item no.: 5603

PU: 6

Trocal Power LED 5.0

LED for freshwater aquaria

- Flat and modern design
- LED module embedded in an aluminum housing
- Bright and natural light
- Developed for best plant growth
- Safe due to low voltage

Technical data

Color temperature: 6,500 K
Luminous flux: 500 lm
CRI: 90
Power: 5 W
Power consumption: 5 W
Beam angle: 120°
Average life: 20,000 lighting hours (L 70)
Range: For mini aquaria 10 – 30 L

Item no.: 5710

PU: 1

Nano Style LED S – 3 W

LED for freshwater aquaria

- Simple and modern design
- Bright and natural light
- Developed for best plant growth
- Safe due to low voltage
- Plug & Play
- For glass thickness 3 – 10 mm / 4 – 5 mm

Technical data

Color temperature: 6,500 K
Luminous flux: 100 lm
CRI: 90
Power: 3 W
Power consumption: 3 W
Beam angle: 120°
Average life: 50,000 lighting hours (L 70)
Range: For mini aquaria 2 – 10 L

Item no.: 11131

PU: 1

Nano Style LED M – 6 W

LED for freshwater aquaria

- Simple and modern design
- Bright and natural light
- Developed for best plant growth
- Safe due to low voltage
- Plug & Play
- For glass thickness 3 – 10 mm / 4 – 5 mm

Technical data

Color temperature: 6,500 K
Luminous flux: 500 lm
CRI: 90
Power: 6 W
Power consumption: 6 W
Beam angle: 120°
Average life: 50,000 lighting hours (L 70)
Range: For mini aquaria 10 – 30 L

Item no.: 11132

PU: 1

Nano Style LED L – 8 W

LED for freshwater aquaria

- Simple and modern design
- Bright and natural light
- Developed for best plant growth
- Safe due to low voltage
- Plug & Play
- For glass thickness 3 – 10 mm / 4 – 5 mm

Technical data

Color temperature: 6,500 K
Luminous flux: 1,280 lm
CRI: 90
Power: 8 W
Power consumption: 8 W
Beam angle: 120°
Average life: 50,000 lighting hours (L 70)
Range: For mini aquaria 30 – 60 L

Item no.: 11133

PU: 1

Trocal LED

Bar LED

Trocal LED

LED for freshwater aquaria

- Modern design
- LED module in a high quality aluminium housing
- Long service life due to high-quality Cree-LEDs on cooling ceramics
- Developed for best plant growth

Average life: 80,000 lighting hours

Color temperature: 5,500 K

CRI: 85

Beam angle: 130°

Trocal LED 40 cm / 18 W

Measures: 40 x 5.8 x 2 cm
Power: 18 W
Luminous flux: 1,680 lm
 For aquaria of 38 – 55 cm, approx. 50 – 80 L

Item no.: 15550
PU: 1

Trocal LED 50 cm / 24 W

Measures: 50 x 5.8 x 2 cm
Power: 24 W
Luminous flux: 2,240 lm
 For aquaria of 48 – 65 cm, approx. 70 – 110 L

Item no.: 15551
PU: 1

Trocal LED 60 cm / 30 W

Measures: 60 x 5.8 x 2 cm
Power: 30 W
Luminous flux: 2,800 lm
 For aquaria of 58 – 75 cm, approx. 90 – 140 L

Item no.: 15552
PU: 1

Trocal LED 70 cm / 36 W

Measures: 70 x 5.8 x 2 cm
Power: 36 W
Luminous flux: 3,360 lm
 For aquaria of 68 – 85 cm, approx. 110 – 170 L

Item no.: 15553
PU: 1

Trocal LED 80 cm / 42 W

Measures: 80 x 5.8 x 2 cm
Power: 42 W
Luminous flux: 3,920 lm
 For aquaria of 78 – 95 cm, approx. 130 – 200 L

Item no.: 15554
PU: 1

Trocal LED 90 cm / 48 W

Measures: 90 x 5.8 x 2 cm
Power: 48 W
Luminous flux: 4,480 lm
 For aquaria of 88 – 105 cm, approx. 150 – 220 L

Item no.: 15556
PU: 1

Trocal LED 110 cm / 60 W

Measures: 110 x 5.8 x 2 cm
Power: 60 W
Luminous flux: 5,600 lm
 For aquaria of 108 – 125 cm, approx. 190 – 280 L

Item no.: 15558
PU: 1

Trocal LED 140 cm / 78 W

Measures: 140 x 5.8 x 2 cm
Power: 78 W
Luminous flux: 7,280 lm
 For aquaria of 138 – 155 cm, approx. 240 – 360 L

Item no.: 15561
PU: 1

Trocal LED 150 cm / 84 W

Measures: 150 x 5.8 x 2 cm
Power: 84 W
Luminous flux: 7,840 lm
 For aquaria of 148 – 165 cm, approx. 260 – 400 L

Item no.: 15562
PU: 1

Trocal LED 160 cm / 90 W

Measures: 160 x 5.8 x 2 cm
Power: 90 W
Luminous flux: 8,400 lm
 For aquaria of 158 – 175 cm, approx. 280 – 440 L

Carbo START FLEX200

CO₂ fertilization set incl. adapter for refillable cylinder

- CO₂ technique set for aquaria up to 200 l
- Connection suitable for CO₂ disposable- and refillable cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Adjustment knob for slow and precise CO₂ supply
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Start

Adapter for CO₂ refillable cylinder

Addition device CO₂ Diffusor Ultra M

CO₂ long-term test made of glass Maxi Crystal

Range: 200 L

Standard scope of delivery

CO₂ special check valve
CO₂ special hose, 2 m
Screwdriver

Item no.: 2940

 - Ideal wherever the refilling of CO₂ is difficult

Scope of delivery

CO₂ disposable cylinder 1,2 kg

Item no.: 3107

PU: 1

Carbo Start

Reusable systems

Carbo Start M200

CO₂ fertilization set incl. refillable cylinder

- Complete set for aquaria up to 200 l
- Connection suitable for CO₂ refillable cylinder
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Adjustment knob for slow and precise CO₂ supply
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Start

Addition device CO₂ Diffusor Ultra M

CO₂ Long-term test made of glass Maxi Crystal

Range: 200 L

Standard scope of delivery

500g CO₂ refillable cylinder
 Safety stand
 CO₂ special check valve
 CO₂ hose, 2 m, black
 Screwdriver
 Hose clamp

Item no.: 3074

PU: 1

Carbo Soda

Reusable systems

Carbo Soda M200

CO₂ fertilization set for soda systems incl. soda CO₂ cylinder

- Complete set for aquaria up to 200 l
- Connection suitable for all regular Soda cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Integrated manometer as an indicator for the working pressure
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Soda

Addition device CO₂ Diffusor Ultra M

Range: 200 L

Standard scope of delivery

425 g CO₂ Soda cylinder
Safety stand
CO₂ special check valve
CO₂ hose, 2 m, black

Item no.: 4026

PU: 1

CarboPower

Reusable systems

Carbo Power M400

CO₂ fertilization set incl. refillable cylinder

- Complete set for aquaria up to 400 l
- Connection suitable for CO₂ refillable cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Two manometers as indicators for the cylinder and working pressure, as well as an adjustment knob and needle valve
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Power with 2 manometers for working pressure and cylinder pressure

Addition device CO₂ Flipper

CO₂ long-term test made of glass Maxi Crystal

Range: 400 L

Standard scope of delivery

500g CO₂ refillable cylinder
Safety stand
CO₂ special check valve
CO₂ hose, 2 m, black

Item no.: 3076

PU: 1

Carbo Power M400 Special Edition

CO₂ fertilization set incl. refillable cylinder

- Complete set for aquaria up to 400 l, incl. solenoid valve
- Connection suitable for CO₂ refillable cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Two manometers as indicators for the cylinder and working pressure, as well as an adjustment knob and needle valve
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Power with 2 manometers for working pressure and cylinder pressure

Addition device CO₂ Flipper

CO₂ long-term test made of glass Maxi Crystal

CO₂ solenoid valve for night shut-off

Range: 400 L

Standard scope of delivery

500g CO₂ refillable cylinder
Safety stand
CO₂ special check valve
CO₂ hose, 2 m, black

Item no.: 3044

PU: 1

Carbo Night M400

CO₂ fertilization set incl. refillable cylinder

- Complete set for aquaria up to 400 l
- Connection suitable for CO₂ refillable cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Built-in solenoid valve to switch off during nighttime, and blue LED light to control CO₂ supply
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Night with integrated solenoid valve for night shut-off

Addition device CO₂ Flipper

CO₂ long-term test made of glass Maxi Crystal

Range: 400 L

Standard scope of delivery

500g CO₂ refillable cylinder
Safety stand
CO₂ special check valve
CO₂ hose, 2 m, black
Screwdriver

Item no.: 3077

PU: 1

Carbo Night M600

CO₂ fertilization set incl. refillable cylinder

- Complete set for aquaria up to 600 l
- Connection suitable for CO₂ refillable cylinders
- With precision pressure reducer made of milled aluminum
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Built-in solenoid valve to switch off during nighttime, and blue LED light to control CO₂ supply
- Carbon, the most important building block for photosynthesis

Set content

CO₂ precision pressure reducer Carbo Night with integrated solenoid valve for night shut-off

Addition device CO₂ Maxi Flipper

CO₂ long-term test made of glass Maxi Crystal

Range: 600 L

Standard scope of delivery

2,000g CO₂ refillable cylinder
CO₂ special check valve
CO₂ hose, 2 m, black
Screwdriver

Item no.: 3079

PU: 1

Reusable cylinders
Reusable systems

CO₂ Refillable cylinder 500 g grey

- CO₂ refillable cylinder
- With overpressure seal
 - With chromed Cage (valve protection)
 - 250 bar TÜV approved
 - Light weight

Scope of delivery

- CO₂ refillable cylinder 500 g grey

Item no.: 3047

PU: 1

CO₂ Refillable cylinder 2,000 g grey

- CO₂ refillable cylinder
- With overpressure protection
 - With chromed Cage (valve protection)
 - 250 bar TÜV approved

Scope of delivery

- CO₂ refillable cylinder 2,000 g grey

Item no.: 3048

PU: 1

BIO CO₂ sets

Bio CO₂

Nano BIO CO₂

Biological CO₂-fertilization system

- Starter set for aquaria up to 60 l
- For connection to the Dennerle Corner filter 40 and 60
- For a constant CO₂ supply for at least 4 weeks
- CO₂ supply through renewable raw materials
- Carbon, the most important building block for photosynthesis

Scope of delivery

- BIO CO₂ bottle incl. Starter capsule
- CO₂ hose, green
- Adapter for Corner Filter 40/60
- Bottle holder

Item no.: 5692

PU: 1

BIO CO₂ StarterSet

Biological CO₂-fertilization system

- Starter set for aquaria up to 60 l
- Supply via Mini Topper with waste gas ventilation
- For a constant CO₂ supply for at least 4 weeks
- CO₂ supply through renewable raw materials
- Carbon, the most important building block for photosynthesis

Scope of delivery

- BIO CO₂ bottle incl. Starter capsule
- CO₂ hose, green
- CO₂ toppler
- Bottle holder

Item no.: 3007

PU: 1

BIO 60 Complete set

Biological CO₂-fertilization system

- Complete set for aquaria up to 60 l
- Supply via Micro Flipper with waste gas ventilation
- For a constant CO₂ supply for at least 4 weeks
- CO₂ supply through renewable raw materials
- Carbon, the most important building block for photosynthesis

Scope of delivery

- BIO CO₂ bottle incl. Starter capsule
- CO₂ hose, green
- Bellenteller
- Micro Flipper
- Bottle holder

Item no.: 3008

PU: 1

BIO 120 Complete set

Biological CO₂-fertilization system

- Complete set for aquaria up to 120 l
- Supply via Mini Flipper with waste gas ventilation
- For a constant CO₂ supply for at least 4 weeks
- CO₂ supply through renewable raw materials
- Carbon, the most important building block for photosynthesis

Scope of delivery

- BIO CO₂ bottle incl. Starter capsule
- CO₂ hose, green
- Thermo bottle holder
- Perfectplant systemset plant nutrition

Item no.: 3009

PU: 1

Advantage pack | Starter capsule

Bio CO₂

BIO CO₂ bottle

Replacement bottle for bio-CO₂ systems

- Control gel for a stabilized CO₂-production
- For a constant CO₂ supply for at least 4 weeks
- Made from renewable raw materials

Scope of delivery

- BIO CO₂ bottle incl. Starter capsule

Item no.: 3004

PU: 6

BIO CO₂ bottle advantage pack

Replacement bottle for bio-CO₂ systems

- Control gel for a stabilized CO₂-production
- For a constant CO₂ supply for at least 4 weeks
- Made from renewable raw materials

Scope of delivery

- 2x BIO CO₂ bottle incl. Starter capsule

Item no.: 3005

PU: 3

BIO CO₂ Starter capsule, 5 pcs

Microorganisms for the Bio-CO₂ bottle

Scope of delivery

- 5x Starter capsule

Item no.: 1557

PU: 1

CO₂ pH-Controller Evolution DeLuxe

pH-Controller incl. pH-electrode

- Permanently measures the pH value in the aquarium electronically and controls the supply of CO₂ via the connected magnetic valve
- Simple operation: 1 button = 1 function
- The pH controller works in the acidic range as well as in the slightly acidic range and in the basic range (seawater)
- Automatic calibration reminder
- Incl. pH electrode and calibration station

Scope of delivery

- pH Controller Evolution DeLuxe
- Profi-Line pH electrode
- Electrode holder
- Calibration solution pH 4, 50 ml
- Calibration solution pH 7, 50 ml
- Aqua dest., 250 ml
- Calibration station

Item no.: 3093

PU: 1

CO₂ pH electrode set

- Laboratory quality
- Cable length 3 m
- Complete set
- Ready for use
- For all conventional pH meters with BNC connection

Scope of delivery

- Modern Gel electrode
- Electrode holder
- Calibration station
- Calibration solution pH 4, 50 ml
- Calibration solution pH 7, 50 ml
- Aqua dest., 250 ml

Item no.: 2971

PU: 1

CO₂ pH-electrode

- Laboratory quality
- Cable length 3 m
- With BNC connection
- Ready for use
- For all conventional pH meters with BNC connection

Scope of delivery

- Gel electrode

Item no.: 3089

PU: 1

CO₂ pH electrode holder

- Prolongs the shelf life of the electrode
- With light protection shade against algae
- Made from high quality plastic

Scope of delivery

- pH electrode holder

Item no.: 3094

PU: 1

Calibration station for pH electrodes

For simple calibration of the pH electrode

- Made from high quality plastic
- Saves pH-calibration solution
- Can also be hung onto the aquarium glass

Scope of delivery

- Calibration station

Item no.: 3091

PU: 1

Aqua dest. – distilled water

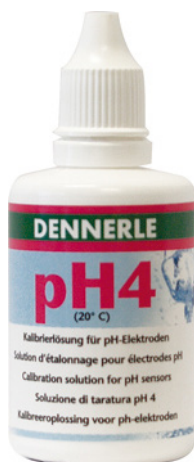

For rinsing of pH electrodes

Scope of delivery

- Distilled water, 250 ml

Item no.: 1452

PU: 1

pH calibration solution 4

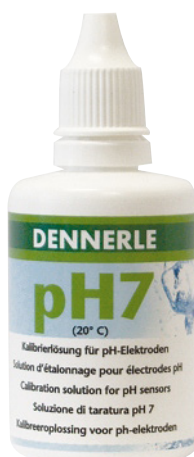

calibration solution for pH-electrodes

Scope of delivery

- pH calibration solution 4, 50 ml

Item no.: 1445

PU: 1

pH calibration solution 7

calibration solution for pH-electrodes

Scope of delivery

- pH calibration solution 7, 50 ml

Item no.: 1446

PU: 1

KCL-Solution
pH-Controller

KCL solution
For storing pH electrodes

Scope of delivery
• KCL-calibration solution

Item no.: 1448
PU: 1

CO₂ pressure reducer START

CO₂ pressure reducer incl. check valve

- Control knob for slow and precise CO₂ supply
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Precision pressure reducer made of milled aluminum
- Connection suitable for the CO₂ disposable cylinder
- Internal fine filter, overpressure protection and automatic pressure compensation
- With CO₂ check valve

Scope of delivery

- CO₂ Precision pressure reducer Carbo Start for Dennerle CO₂ disposable cylinder
- CO₂ special check valve
- Hose clamp
- Screwdriver

Item no.: 3059

PU: 1

CO₂ pressure reducer POWER

CO₂ pressure reducer incl. check valve

- Two manometers as indicators for the cylinder and working pressure, as well as an adjustment knob
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Precision pressure reducer made of milled aluminum
- Connection suitable for the CO₂ disposable cylinder
- With needle valve for fine adjustment
- With CO₂ check valve

Scope of delivery

- High performance CO₂ precision pressure reducer Carbo Power for Dennerle CO₂ disposable cylinder
- CO₂ special check valve

Item no.: 3062

PU: 1

CO₂ pressure reducer NIGHT

CO₂ pressure reducer incl. check valve

- Built-in magnetic valve to switch off during nighttime
- Dynamic Valve Control (DVC) for a constant CO₂ supply
- Precision pressure reducer made of milled aluminum
- Connection suitable for the CO₂ disposable cylinder
- With blue LED to control the CO₂ supply
- With CO₂ check valve

Scope of delivery

- CO₂ precision pressure reducer Carbo Night for Dennerle CO₂ disposable cylinder
- CO₂ special check valve
- Screwdriver

Item no.: 3063

PU: 1

Diffusers

Additional devices

CO₂ Diffusor Ultra S

CO₂ diffusor for freshwater aquaria

- Compact and clean design
- Made from shatterproof acrylic
- Ceramic disc for a very fine atomization
- For CO₂ hoses with 4 mm inner diameter (6 mm outer)
- With built-in bubble counter

Range: 100 L

Scope of delivery

- CO₂ Diffusor Ultra S
- With suction cup holder 2x

Item no.: 3237

PU: 1

CO₂ Diffusor Ultra M

CO₂ diffusor for freshwater aquaria

- Compact and clean design
- Made from shatterproof acrylic
- Ceramic disc for a very fine atomization
- For CO₂ hoses with 4 mm inner diameter (6 mm outer)
- With built-in bubble counter

Range: 200 L

Scope of delivery

- CO₂ Diffusor Ultra M
- With suction cup holder 2x

Item no.: 3238

PU: 1

CO₂ Diffusor Ultra L

CO₂ diffusor for freshwater aquaria

- Compact and clean design
- Made from shatterproof acrylic
- Ceramic disc for a very fine atomization
- For CO₂ hoses with 4 mm inner diameter (6 mm outer)
- With built-in bubble counter

Range: 400 L

Scope of delivery

- CO₂ Diffusor Ultra L
- With suction cup holder 2x

Item no.: 3239

PU: 1

CO₂ Diffusor-pipe Mini crystal

CO₂ diffusor for freshwater aquaria

- Ultra fine atomization
- Effective CO₂ dissolution
- Ideal for small and smallest aquaria
- Can be combined with all CO₂ supply systems
- With built-in bubble counter

Scope of delivery

- Diffusor-pipe Mini crystal
- Longlife-suction cup, transparent

Item no.: 2982

PU: 1

CO₂ Micro-Perler

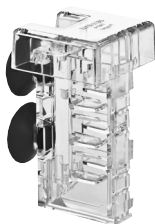

- With built-in bubble counter
- Replaceable ceramic disc

Scope of delivery

- Micro Perler

Item no.: 13065

PU: 1

CO₂ Nano-Flipper

CO₂ diffusor for freshwater aquaria

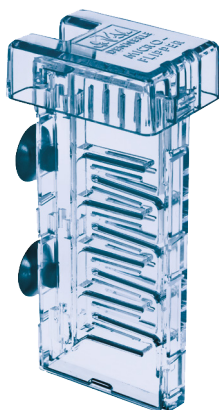

- The collection tray ensures an effective CO₂ dissolution
- Safe, as unintentionally large amounts of CO₂ are automatically removed by the waste gas ventilation
- Can be combined with all conventional CO₂ fertilization systems
- Made of high quality plastic with a long service life

Scope of delivery

- Nano CO₂ Flipper
- 2 collecting trays: 10 – 25 L und 25 – 40 L

Item no.: 5987

PU: 1

CO₂ Micro-Flipper

CO₂ diffusor for freshwater aquaria

- The collection tray ensures an effective CO₂ dissolution
- Safe, as unintentionally large amounts of CO₂ are automatically removed by the waste gas ventilation
- Can be combined with all conventional CO₂ fertilization systems
- Made of high quality plastic with a long service life

Scope of delivery

- CO₂ Micro-Flipper
- Longlife-suction cup 2x

Item no.: 3075

PU: 1

CO₂ Mini-Flipper

CO₂ diffusor for freshwater aquaria

- The collection tray ensures an effective CO₂ dissolution
- Safe, as unintentionally large amounts of CO₂ are automatically removed by the waste gas ventilation
- Can be combined with all conventional CO₂ fertilization systems
- Made of high quality plastic with a long service life

Scope of delivery

- CO₂ Mini-Flipper
- Longlife-suction cup black 2x

Item no.: 3071

PU: 1

CO₂ Flipper

CO₂ diffuser for freshwater aquaria

- The collection tray ensures an effective CO₂ dissolution
- Safe, as unintentionally large amounts of CO₂ are automatically removed by the waste gas ventilation
- Can be combined with all conventional CO₂ fertilization systems
- Made of high quality plastic with a long service life

Range: 300 L

Scope of delivery

- CO₂ Flipper
- Longlife-suction cup black 3x

Item no.: 3069

PU: 1

CO₂ Maxi-Flipper

CO₂ diffuser for freshwater aquaria

- The collection tray ensures an effective CO₂ dissolution
- Safe, as unintentionally large amounts of CO₂ are automatically removed by the waste gas ventilation
- Can be combined with all conventional CO₂ fertilization systems
- Made of high quality plastic with a long service life

Range: 600 L

Scope of delivery

- Profi-Line CO₂ Maxi-Flipper
- Longlife-suction cup black 3x

Item no.: 3070

PU: 1

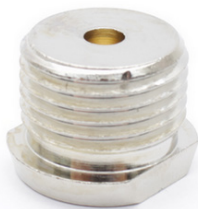

CO₂ Adapter disposable pressure reducer to refillable

Item no.: 2999
PU: 1

CO₂ Adapter refillable pressure reducer to disposable cylinder

Item no.: 3000
PU: 1

CO₂ Adapter Nano + Space pressure reducer for disposable

Item no.: 2997
PU: 1

CO₂ Adapter Nano + Space pressure reducer for refillable

Item no.: 2998
PU: 1

CO₂ Adapter refillable pressure reducer to soda

Item no.: 4027
PU: 1

Hose routing | Hoses

CO₂ hoses

Nano CO₂ hose routing

- For kink-free hose routing
- For CO₂ hoses with 4 mm inner diameter (6 mm outer)
- Made from high quality plastic
- Can be attached at top edge of the aquarium
- Simple to install

Scope of delivery

- Hose routing

Item no.: 5989

PU: 1

Nano CO₂ hose, black

- CO₂-proof special plastic
- Hose with 4 mm inner diameter (6 mm outer)
- Pressure resistant up to 7 bar
- Very flexible, easy to install
- No PVC/silicone

Scope of delivery

- CO₂ hose black

Item no.: 2979

PU: 1

CO₂ hose, 2 m, black

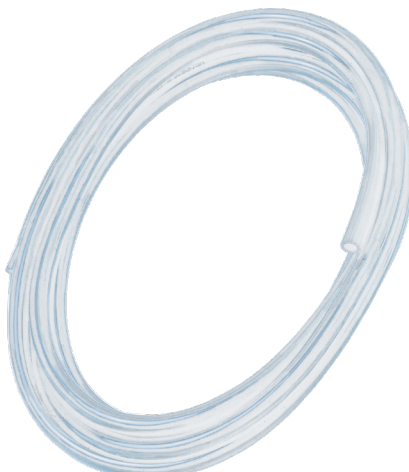

- CO₂-proof special plastic
- Hose with 4 mm inner diameter (6 mm outer)
- Pressure resistant up to 7 bar
- Very flexible, easy to install
- No PVC/silicone

Scope of delivery

- CO₂ special-hose black

Item no.: 3060

PU: 3

CO₂ hose, 5 m, transparent

- CO₂-proof special plastic
- Hose with 4 mm inner diameter (6 mm outer)
- Pressure resistant up to 7 bar
- Very flexible, easy to install
- No PVC/silicone

Scope of delivery

- CO₂ special-hose transparent

Item no.: 3061

PU: 3

QuickTest | Correct + pH | Special-Indicator | Test Crystal

CO₂ tests

CO₂ QuickTest

Quicktest for checking the CO₂ content

- Simple use
- Result within a few seconds
- When using a CO₂ system we recommend it for the permanent control of the CO₂ content in the aquarium
- Simply fill the test tubes with aquarium water, shake briefly and the color reaction will show the result.
- In the morning there is usually enough CO₂, which is quickly consumed by the plants. Therefore, test the water after about half of the lighting time

Scope of delivery

- 2x test tubes
- Pipette

Item no.: 3106

PU: 6

CO₂ long term test Correct + pH

Measuring device for permanently measuring the CO₂ content

- Exact control of the CO₂ content
- With color comparison chart for determining the CO₂ content
- Made from high quality plastic
- Functions also in case of lower carbonate hardnesses
- The result is not influenced by other acids

Scope of delivery

- testing container
- CO₂ special indicator
- 6 color comparison chart

Item no.: 3040

PU: 3

CO₂ Special-Indicator

Spare ampoules for CO₂ long term tests

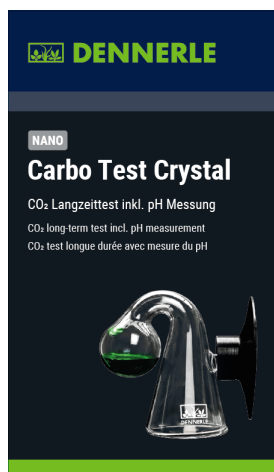

- for 5 months
- Incl. color comparison chart

Scope of delivery

- 5 ampoules à 1,3 ml
- With 6 color comparison chart

Item no.: 3041

PU: 4

Carbo Test Crystal NANO

Measuring device for permanently measuring the CO₂ content

- Made from high quality crystal glass
- For all aquaria
- Including pH measuring
- Incl. color comparison chart
- Functions also in case of lower carbonate hardnesses

Scope of delivery

- long term test Mini crystal
- CO₂ special indicator
- Longlife-suction cup black

Item no.: 2985

PU: 1

Carbo Test Crystal

CO₂ tests

Carbo Test Crystal

Measuring device for permanently measuring the CO₂ content

- Made from high quality crystal glass
- For all aquaria
- Including pH measuring
- Incl. color comparison chart
- Functions also in case of lower carbonate hardnesses

Scope of delivery

- long term test Maxi crystal
- CO₂ special indicator
- Longlife-suction cup black

Item no.: 2986

PU: 1

Suction cup Longlife

Scope of delivery

- suction cup Longlife, black large 2 pcs

Item no.: 3042

PU: 2

CO₂ special check valve

- Safely protects CO₂ devices from backflowing water
- Protects against corrosion damage to the technical devices
- With CO₂ resistant special membrane
- Made in Germany
- For CO₂ hoses with 4 mm inner diameter (6 mm outer)

Scope of delivery

- CO₂ special check valve

Item no.: 3053

PU: 3

CO₂ solenoid valve

- To control the CO₂ supply
- Security metal hose connections
- Splash water proof
- Power consumption 2 watts
- 3 years warranty

Scope of delivery

- CO₂ magnetic valve

Item no.: 2970

PU: 1

CO₂ bubble counter Exact

Measuring device to determine the number of CO₂ bubbles

- The number of bubbles can thus be set more easily, quickly and accurately
- Comfortable reading due to reflector clamp
- 3 mounting options
- Made from high quality plastic
- Easy to clean

Scope of delivery

- CO₂ bubble counter Exact
- Holder
- Longlife-suction cup
- Holding strap

Item no.: 3050

PU: 1

Spare parts

Classic-Line CO₂ safety stand

Safety stand for CO₂ refillable cylinder

- Suitable for all regular 500 g CO₂ reusable cylinders

- Stable safety stand

Item no.: 3034

PU: 1

Nano Pressure reducer-spare seal

- for items 2996 and 3063

- Nano Pressure reducer spare seal

- 2 pcs

Item no.: 3035

PU: 1

Seal for disposable pressure reducer, set of 2

- Seal for CO₂ pressure reducer "Comfort-Line"
- 2 pcs

Item no.: 3029

PU: 1

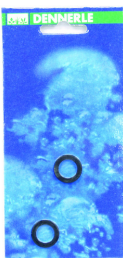

CO₂ spare seal reusable pressure reducer Classic-Line, set of 2

- Seal for CO₂ pressure reducer "Classic-Line"
- 2 pcs

Item no.: 3028

PU: 1

O-ring reusable pressure reducer Evolution, set of 2

- for reusable pressure reducer

- O-Ring

- 2 pcs

Item no.: 3056

PU: 1

Screwdriver for CO₂ pressure reducer

- for CO₂ pressure reducers Start and Night

- Screwdriver

Item no.: 3058

PU: 1

Ceramic disc + seal for Micro-Perler

- Spare part

Item no.: 3073

PU: 1

Spare parts

CO₂ Maxi-Flipper, Cover
• Spare part
• Suitable for Flipper and Maxi Flipper

• CO₂ Maxi-Flipper, Cover

Item no.: 1599
PU: 1

Nano Flipper, Cover large
• Spare part

• Nano Flipper, Cover large

Item no.: 3055

FB1 SubstrateStart

Quickly transforms the aquarium bed into an active bio-filter

- Improves the water quality, to the benefit of the fish
- With living humus bacteria - transform sludge into plant nutrients
- Ensures all aquarium plants get off to a good start and develop strong roots
- Ensures a fast, problem-free start

Content: 50 g

Item no.: 4481

PU: 6

NutriBasis | Deponit-Mix

Nutrient medium

NutriBasis 6in1

Substrate for freshwater aquaria

- Permanently healthy plant growth
- Excellent starting conditions
- Ideal for beginners in the aquatic hobby
- With all important nutrients and trace elements
- Immediate and long-term effect

NutriBasis 6in1 – 2,4 kg

Item no.: 4586

PU: 12

NutriBasis 6in1 – 4,8 kg

Deponit-Mix
Nutrient medium

Deponit-Mix Professional 10in1

Multimineral nutrient substrate for freshwater aquaria

- Long-term nutrient supply for at least 8 years
- With all essential nutrients, minerals and trace elements
- Activator pearls for increased substrate fertility
- With live humus bacteria
- For healthy, strong plant growth

**Deponit-Mix Professional 10in1 –

Power Tabs

Plant care | Substrate fertilizer

Power Tabs

Fertilizer tablets for aquarium plants

- With iron and manganese for intensively colored leaves
- For lush, powerful growth
- Ideal to help the start-up and for refertilization
- Special nutrient complex that helps the plants to adapt to the aquarium conditions during the rooting phase
- Eliminates nutrient deficiencies in older aquariums
- Brings the nutrients directly to the roots
- Not algae promoting

V30 Complete

Plant care | Liquid fertilizer

V30 Complete

Full fertilizer for aquarium plants

- Provides aquarium plants with all the nutrients they need for vigorous, lush growth
- Long-term effect due to highly effective protective shells – so-called chelates keeping the nutrients available to plants for a long time
- Valuable trace elements such as iron and manganese ensure lush green leaves
- Red and reddish-brown leaf colors are intensified, attractive veins are enhanced
- Without phosphates and nitrates
- Can also be used as a sole fertilizer
- Can be added with the Dosator
- Part of the PerfectPlant system

FB7 Bacto Elixier | Starter Rapid | Bacto Elixier

Water care

Nano FB7 Bacto Elixier 15 ml

Mixed culture of live cleaning and filter bacteria

- For the biological activation of filter material and substrate
- With a guaranteed 15 million bacteria per milliliter at filling
- Degrades fish excretions, food and plant debris
- Removes poisonous substances (e.g. ammonia, nitrite)
- Less cleaning effort due to biological sludge decomposition
- Degrades proteins, fats, carbohydrates and many organic pollutants

Content: 15 ml

Range: 600 L

Time range: Cube 30 L = 20 weeks

Item no.: 5855

PU: 6

Aquarium Starter Rapid, 200 ml

Mixed culture of live cleaning and filter bacteria incl. bacteria food

- Concentrate for fast, biological activation of filter material and substrate
- For a quick and safe startup of the aquarium
- With a guaranteed 500 million bacteria per milliliter at filling
- Removes poisonous substances (e.g. ammonia, nitrite)
- First fish stocking possible after only 24 hours

Content: 2 x 100 ml

Range: 100 L

Item no.: 1681

PU: 6

Black Cones | Catappa Barks | Catappa Leaves

Water Care

Black Cones

Alder cones for aquaria

- With valuable humic and tannic substances that naturally care for and protect aquarium fish
- For near natural tropical-like aquarium water
- Promote well-being, vitality and readiness for spawning
- Prevent fungal diseases of fish and spawning fungus
- Mildly acidify and stabilize the pH value
- Especially recommended for fish from black water regions, such as discus, neons, angelfish, dwarf cichlids, antenna catfish, etc.

Scope of delivery: 50 pcs

Content: 40 g

Range: 1,200 L

Item no.: 2748

PU: 6

Nano Catappa Barks

Sea almond bark for aquaria

- Natural water conditioner
- Naturally creates tropical-like aquarium water for shrimp, crayfish and fish
- Protects the mucous membrane and prevents infections
- Especially recommended for heavily stocked aquariums
- The pieces of bark provide a great decorative effect
- Easy to use

Content: 8 pcs

Range: 160 L

Item no.: 5867

PU: 6

Nano Catappa Leaves

See almond leaves for aquaria

- Natural water conditioner and food supplement
- Create natural, tropical-like aquarium water
- Are a natural decoration and promote species appropriate behaviour
- Are a valuable additional food for crayfish and shrimp and increase breeding success
- Ideal for starting a new aquarium
- Mildly acidify and stabilize the pH value
- Premium quality: harvested directly from the tree, cleaned, dried, handpicked

Content: 12 pcs

Range: 120 L

Item no.: 5916

PU: 6

Catappa Leaves

See almond leaves for aquaria

- Natural water conditioner for aquaria and valuable food supplement for sucking catfish (e.g. Ancistrus species), shrimp and snails
- Create natural, tropical-like aquarium water
- Contain numerous natural active ingredients that have a positive effect on water and fish, including valuable humic and fulvic acids
- Ideal for starting a new aquarium and as a vacation food especially for catfish
- Mildly acidify and stabilize the pH value
- Premium quality: harvested directly from the tree, cleaned, dried, handpicked

Content: 10 pcs

Range: 1,000 L

Time range:

50 L-Aquarium = 40 weeks

100 L-Aquarium = 20 weeks

200 L-Aquarium = 10 weeks

Item no.: 2744

Water conditioner | Nano Crusta | KH+ Elixier

Water conditioner

Nano Water conditioner

Water conditioner for freshwater aquaria

- Immediately neutralizes dangerous chlorine
- Binds poisonous heavy metals such as copper and lead
- Protective formula for all aquarium inhabitants
- Adds natural bio-active ingredients and care substances

Nano Water conditioner, 15 ml – DE

Range: 150 L

Time range: Cube 30 L = 40 weeks in case of water change of 25%

Item no.: 5908

PU: 6

Nano Water conditioner , 15 ml – INT

Range: 150 L

Time range: Cube 30 L = 40 weeks in case of water change of 25%

Item no.: 5930

PU: 6

Nano Crusta Mineral

Vital minerals for shrimp and crayfish

- Multimineral preparation with valuable, natural montmorillonite clay
- With bio-active calcium and magnesium for problem-free molting, healthy growth and a strong exoskeleton
- To enhance the white coloration of all Caridina and Neocaridina species
- Clarifies and cleans the aquarium water, binds pollutants

Content: 35 g

Item no.: 5864

PU: 6

KH+ Elixier, 250 ml

Liquid water hardener

- For optimal carbonate hardness and a stable pH value
- Fast and safe increase of the carbonate hardness to species-appropriate water values
- Raises and stabilizes the pH value
- Easily soluble, simple use
- For healthy growth, vitality and well-being
- For all freshwater aquaria
- Ideal for hardening osmosis water
- 20 ml per 100 L aquarium water increases the KH by 0.6°d

Content: 250 ml

Range: 750 liters of hard water

Item no.: 1676

PU: 6

Aqua Elixier | Humin Elixier

Water conditioner

Aqua Elixier

Water conditioner for freshwater aquaria

- Immediately neutralizes dangerous chlorine
- Binds poisonous heavy metals such as copper and lead
- Protective formula for all aquarium inhabitants
- Protects gills, mucous membrane and fins of the fish through high-quality protective colloids
- With the valuable leaf extract of the Moringa tree (*Moringa oleifera*), the „tree of life“

Aqua Elixier, 250 ml

Range: 1,250 L

Item no.: 1670

PU: 6

Aqua Elixier, 500 ml

Range: 2,500 L

Item no.: 1671

PU: 6

Humin Elixier

Tropical humic and fulvo acids

- With concentrated extract from sea almond leaves
- Mixture of valuable humic and fulvic acids for biotope-appropriate treatment of aquarium water
- Inhibits harmful germs, prevents diseases
- For the successful keeping and breeding of fish and shrimp
- Creates species-appropriate water conditions
- Encourages balanced growth, health, vitality and colors
- The aquarium water does not get a disturbing yellowish color

Humin Elixier, 250 ml

Range: 1,250 L

Item no.: 1672

Shrimp King salt

Water conditioner

Shrimp King Bee Salt GH+

Multi mineral salt for soft water shrimp

- With valuable minerals, trace elements and vitamins
- Creates ideal water conditions for successful keeping and breeding of soft water shrimp such as bee and bumblebee shrimp
- Results in a slightly acidic pH value of ca. pH 6.0 – 6.5
- For balanced growth, health, vitality and high breeding success
- Increases the total hardness, does not increase the carbonate hardness
- With essential vitamin C and vitamin B complex
- Biologically balanced calcium-magnesium ratio

Shrimp King Bee Salt GH+, 200 g

Content: 200 g
Range: 1,000 L osmosis water

Item no.: 6127

PU: 3

Shrimp King Bee Salt GH+, 1.000 g

Content: 1,000 g
Range: 5,000 L osmosis water

Item no.: 6128

PU: 1

Shrimp King Shrimp Salt GH/KH+

Multi mineral salt for shrimp

- With valuable minerals, trace elements and vitamins
- Creates ideal water conditions for successful keeping and breeding of shrimp that require a neutral to slightly alkaline pH of 7.0 – 7.5
- Ideal for Neocaridina species and their cultivated forms as well as for all cultivated forms of the tiger shrimp Caridina mariae
- For balanced growth, health, vitality and high breeding success
- Increases the total and carbonate hardness
- With essential vitamin B complex
- Biologically balanced calcium-magnesium ratio

Shrimp King Shrimp Salt GH/KH+, 200 g

Content: 200 g
Range: 1,330 L osmosis water

Item no.: 6134

PU: 3

Shrimp King Shrimp Salt GH/KH+, 1.000 g

Content: 1,000 g
Range: 6,650 L osmosis water

Item no.: 6135

PU: 1

Shrimp King salt | Osmose ReMineral

Water conditioner

Shrimp King Sulawesi Salt

Multi mineral salt for shrimp from the Sulawesi lakes

- With valuable minerals, trace elements and vitamins
- Creates ideal water conditions for the successful keeping and breeding of shrimps from the Sulawesi lakes
- Results in a slightly basic pH value of ca. pH 7.8 – 8.5
- For balanced growth, health and vitality
- Increases the total and carbonate hardness
- With essential vitamin B complex
- Biologically balanced calcium-magnesium ratio

Shrimp King Sulawesi Salt, 200 g

Content: 200 g
Range: 1,000 L osmosis water

Item no.: 6150

PU: 3

Shrimp King Sulawesi Salt, 1.000 g

Content: 1,000 g
Range: 5,000 L osmosis water

Item no.: 6151

PU: 1

Osmose ReMineral +

Multi mineral salt for osmosis water and other soft waters

- For hardening and mineralization
- Raises the total- and carbonate hardness
- Stabilizes the pH value
- With valuable minerals and trace elements such as boron, fluorine, iodine
- Selected organic active ingredients activate the filter bacteria
- Ideal for all freshwater aquaria, especially for discus!
- High purity mineral salts in pharmaceutical quality

Osmose ReMineral+, 250 g

Content: 250 g
Range: 5,000 liters of hard water (GH)
3,250 HL (KH)

Item no.: 7035

PU: 1

Osmose ReMineral +, 1.100 g

Content: 1,100 g
Range:
22,000 liters of hard water (GH)
14,300 HL (KH)

Item no.: 7036

PU: 1

WaterTest 6 in 1 | AquaTest GH-KH-pH

Water conditioner

Watertest 6in1

Quicktest for aquaria

- Instant test for the 6 most important water values: pH value, carbonate hardness, total hardness, nitrite, nitrate, chlorine
- Dip – read – done!
- Measuring results within 60 seconds
- Laboratory quality

Scope of delivery: 50 test strips

Content: 1 pc

Item no.: 1683

PU: 6

Aqua test GH-KH-pH

Drip test for garden/swimming ponds, pools and aquaria

- Test for the determination of total hardness, carbonate hardness and the pH value
- Precise measuring results
- Also ideal for measuring tap water, well water and other fresh waters
- Simple and easy!
- Incl. color comparison chart

Range:

Test total hardness GH 25 ml, for ca. 100 tests (at GH 10 °d)

Test carbonate hardness KH 25 ml, for ca. 100 tests (at KH 10 °d)

Test pH 5-10 25 ml, for ca. 200 tests L

Scope of delivery:

- Test total hardness GH 25 ml
- Test carbonate hardness KH 25 ml
- Test pH 5-10 25 ml
- Measuring vessel with 5 ml ring mark
- Color comparison chart pH

Content: 1 pc

Item no.: 2799

PU: 1

Osmose Compact 130

Complete device to produce soft, highly pure water

- Removes up to 98% of all water contents
- Removes bacteria, viruses, heavy metals (copper, lead, zinc, etc.), phosphate, nitrate and silicate
- Modern TFC dry membrane made of polyamide/polysulfone. High resistance against bacterial decomposition
- Active coal filter protects against chlorine, fine filter protects against floating particles
- Ratio osmosis water: residual water approx. 1:2.5 to 1:4 (depending on tap water temperature and pressure)
- Ready for immediate connection, incl. water tap connection 3/4" metal („washing machine connection")

Scope of delivery:

- Osmosis device
- Flow limiter 200cc
- 2 brackets for wall mounting
- Key for membrane casing lid

Performance:

130 L/day at 25 °C and 4.1 bar pressure

Item no.: 7039

PU: 1

Osmose Professional

Complete device to produce soft, highly pure water

- Removes up to 98% of all water contents
- Removes bacteria, viruses, heavy metals (copper, lead, zinc, etc.), phosphate, nitrate and silicate
- Modern TFC dry membrane made of polyamide/polysulfone. High resistance against bacterial decomposition
- Active coal filter protects against chlorine, fine filter protects against floating particles
- Increased membrane life and high continuous performance due to flush valve – removes performance-reducing deposits on the membrane
- Ratio osmosis water: residual water approx. 1:2.5 to 1:4 (depending on tap water temperature and pressure)
- Ready for immediate connection, incl. water tap connection 3/4" metal („washing machine connection")

Scope of delivery:

- Osmosis device
- 2 brackets for wall mounting
- Key for membrane casing lid

Food for fish

Nano Gran, 100 ml

Staple food for nano fish

- With a balanced multivitamin complex and all important minerals and trace elements
- Species-appropriate composition based on the model of nature
- Carefully manufactured from carefully selected, high-quality raw materials
- Carefully manufactured from carefully selected, high-quality raw materials
- Rich in astaxanthin for full display of species-specific coloration splendor

Scope of delivery

Can: 100 ml

Content: 55 g

Item no.: 5915

PU: 6

Complete Gourmet Menu, 100 ml

Staple food for all ornamental fish

- With natural crustaceans, insect larvae, plankton and algae
- With probiotic lactic acid bacteria and prebiotic active ingredients for healthy intestinal function and optimal nutrient utilization
- High acceptance due to soft granules, like natural feed animals
- Beta-glucans from natural raw materials help support the body's immune defenses
- Rich in astaxanthin for full display of species-specific coloration splendor

- The composition is oriented to the natural growth that snails consume as grazers

Scope of delivery

Content: 45 g

Item no.: 6122

PU: 6

Shrimp King

Food for invertebrates

Shrimp King Yummy Gum

Adhesive food dough for freshwater shrimp

- Suitable for all kinds of shrimp
- 100% purely natural ingredients
- Natural carotenoids intensify the formation of species-specific coloration
- Roll, press on, feed
- The food can be pressed onto stones, roots or the aquarium glass and thus forms a „shrimp pasture“, which is eaten by the animals

Scope of delivery

Content: 50 g

Item no.: 6119

PU: 6

Shrimp King Baby

Breeding food for shrimp

- Micro granules for daily feeding
- Specially adapted to the nutritional requirements and diet of shrimp larvae
- The microgranulate is (a) water stable and (b) does not disappear in the substrate or filter like dust food. It therefore avoids unnecessary water pollution and does not cloud
- Contains high quality ingredients such as nettle, walnut leaves, birch leaves, ginkgo leaves, pumpkin, birch bark, lapacho bark and barley grass. Vegetables such as spinach, fennel and dandelion, herbs such as rosemary, as well

as aronia berries and flower pollen provide valuable minerals, trace elements, vitamins and secondary plant compounds.

- Natural carotenoids promote the formation of the full species-specific color splendor, especially in yellow, orange and red colored animals

Scope of delivery

Content: 35 g

Item no.: 6071

PU: 6

Shrimp King Cambarellus

Staple food for dwarf crayfish

- Thin sinkable sticks 100% from natural ingredients rich in calcium
- For a strong shell and great colors thanks to the color booster astaxanthin
- Guarantee: without artificial preservatives

Scope of delivery

Content: 45 g

Item no.: 6078

PU: 6

Shrimp King Color

Color food for shrimp

- Food granules for selective color enhancement for all yellow, orange and red colored shrimp species
- With high content of natural color enhancers such as astaxanthin, beta-carotene and lutein
- Sinkable, water-stable food granules made from 100% natural ingredients for natural color enhancement of freshwater dwarf shrimp
- Especially suitable for the following species: Red Fire, Sakura Red, Sakura Orange, Blue Pearls, Yellow Fire, Black Tiger Shrimp and Blue Tiger Shrimp

- Guarantee: Without artificial colors and preservatives, without fish meal

Scope of delivery

Content: 35 g

Item no.: 6075

PU: 6

Shrimp King Mineral

Mineral food for shrimp

- Food sticks for selective nutritional supplementation with the extra portion of minerals
- Mit 7% calcium und 10% montmorillonite
- Sinkable, water-stable food sticks made from 100% natural ingredients for specific mineral supplementation
- Supports molting and a strong shell

Scope of delivery

Content: 45 g

Item no.: 6073

PU: 6

Shrimp King Protein

Protein food for shrimp

- Food sticks for selective nutritional supplementation with high-quality proteins and essential amino acids
- Protein content 42.2%
- For times of increased protein requirement, e.g. during egg formation
- Sinkable, water-stable food sticks made from 100% natural ingredients for specific protein supplementation
- Guarantee: Without artificial colors and preservatives, without fish meal

- Perfectly suited for feeding crayfish, dwarf crayfish (CPOs), crabs, large-armed shrimp and snails

Scope of delivery

Content: 45 g

Item no.: 6072

PU: 6

Shrimp King Snow Pops

The tasty food fun for all shrimp

- Sinkable food sticks made from 100% organic soy bran
- For healthy, balanced growth and breeding joy
- The sticks literally „pop“, disintegrate and form an extensive „food lawn“
- Sticks are only gradually broken down by bacteria due to the high proportion of crude fiber and can therefore remain in the aquarium longer
- Ideal as a weekend food
- Guarantee: Without artificial colors and preservatives, without fish meal
- Excellent variety and complement to the main food

Scope of delivery

Content: 40 g

Item no.: 6069

PU: 6
